

## **How we use Cookies**

A cookie is a small file which asks permission to be placed on your computer's hard drive. Once you agree, the file is added and the cookie helps analyse web traffic or lets you know when you visit a particular site. Cookies allow web applications to respond to you as an individual. The web application can tailor its operations to your needs, likes and dislikes by gathering and remembering information about your preferences. This site uses Google Analytics and users should disable cookies in their browser, if they do not wish their visit to be tracked. Google Analytics uses traffic log cookies to identify which pages are being used. This helps us analyse data about webpage traffic and improve our website in order to tailor it to customer needs. We only use this information for statistical analysis purposes and then the data is removed from the system. Overall, cookies help us provide you with a better website, by enabling us to monitor which pages you find useful and which you do not. A cookie in no way gives us access to your computer or any information about you, other than the data you choose to share with us. You can choose to accept or decline cookies. Most web browsers automatically accept cookies, but you can usually modify your browser setting to decline cookies if you prefer. This may prevent you from taking full advantage of the website.

You can change your browser settings to refuse or delete cookies or JavaScript but please note that, if you do, this may impair the functionality of the Intercity Removals website. As the method by which you may choose to refuse or delete cookies or JavaScript varies from browser to browser, please consult your browser's Help menu for further information.
